Subject: FW: Possum Pt - Outfall 010 sample 2/8/16

Ken,

I'm assuming that we'll need to submit an explanation for these results along with justification of why we didn't do the chronic toxicity testing.

Please coordinate to supply something next week, I'd like to submit the eDMR by the end of next week if possible.

Thanks.

Ken / Jeff,

Attached are the complete results for the:

- 4-hr manual flow composite samples collected on 2/8/16 for metals, and
- 24-hr manual flow composite samples collected on 2/8 and 2/9/16 for acute toxicity.

Acute toxicity results are good for both the UV and non-UV treated samples. I attached the acute toxicity lab report.

Sincerely,

John D. DeBarbieri, P.E.

Ken / Jeff,

Regarding the below tabulated results for the Pond D Toe Drainage; we added the results of the Pond D Toe Drainage sample (4-hr manual flow composite) also collected on 2/8/16. Please refer to the attached.

Sincerely,

John D. DeBarbieri, P.E.

Ken / Jeff,

Attached are the tabulated results of the Outfall 010 sample (4-hr manual flow composite) collected on 2/8/16 for compliance monitoring. I also attached the Lab Report.

Sincerely,

John D. DeBarbieri, P.E.
